

## **Northern Illinois Physicians for Connectivity Announces Selection of Preferred Technology Partners**

**Glen Ellyn, Illinois February, 2011** --- NIPFC, Northern Illinois Physicians for Connectivity, is excited to announce its list of preferred technology partners. These preferred technology partners have been screened by physicians with oversight of electronic information technology consultants to assist physicians and provider groups with implementing Electronic Medical Records (EMR) systems or providing comprehensive electronic information technology solutions encompassing computer hardware, software and professional consulting services.

Whether you or your practice has already implemented an Electronic Medical Record (EMR), or are interested in implementing an EMR in the future, NIPFC is now available to assist you and your practice's technology needs. In addition, NIPFC will provide education, which may assist your efforts for achieving meaningful use.
